

CONTENTS

Note: The contents comprise only the main activities of each Unit.

UNIT 1 - The field of Mechanical Engineering	17
Section one	18
Reading 1 - <i>An introduction to the field of Mechanical Engineering</i>	18
Reading task	19
Word study 1	19
Use of English - <i>An evolving profession</i>	21
Writing	22
Listening	22
Section two	23
Reading 1 - <i>Some sectors where mechanical engineers work</i>	23
Reading task	24
Writing	25
Reading 2 - <i>The field of Mechanical Engineering</i>	28
Reading task 1	29
Speaking	33
Language study - <i>Describe functions / uses</i>	35
Helpful notes	37
 UNIT 2 - An introduction to Fluid Mechanics	 39
Section one	40
Reading 1 - <i>Fluid Mechanics - Introduction</i>	40
Reading task 1	41
Word study	42
Use of English - <i>Creating a draft</i>	42
Reading 2 - <i>Blaise Pascal and his contribution to hydrostatics</i>	44
Reading task 1	45
Section two	46
Reading - <i>Archimedes and the second principle of hydrostatics</i>	46
Reading task 1	47
Listening	50
Language study - <i>Zero conditional: stating facts</i>	51
Helpful notes	53

UNIT 3 – An introduction to Thermodynamics	55
Section one	56
Reading - <i>Thermodynamics - An introduction</i>	56
Reading task	57
Word study 1	57
Section two	59
Reading 1 - <i>The first and second laws of Thermodynamics</i>	59
Reading task	60
Use of English 1 - <i>Thermodynamic cycles</i>	61
Reading 2 - <i>The third law of Thermodynamics</i>	63
Reading task	64
Word study	65
Speaking	65
Writing	67
Language study - <i>Prepositions</i>	68
Helpful notes	69
UNIT 4 – Engine theory - Heat engines	71
Section one	72
Reading 1 - <i>Heat engines - Overview</i>	72
Reading task	74
Word study 1	74
Section two	76
Reading 1 - <i>The basic parts of a gasoline engine</i>	77
Reading task 1	78
Word study 1	78
Reading 2 - <i>The four-stroke cycle</i>	80
Reading task 1	81
Word study	81
Use of English - <i>The four-stroke cycle of a petrol engine</i>	85
Speaking	87
Language study - <i>Stating definitions</i>	88
Helpful notes	90
UNIT 5 – External combustion engines	91
Section one	92
Reading 1 - <i>Steam engine: An external combustion engine</i>	92
Reading task 1	94
Word study	94
Reading 2 - <i>The advantages of steam engines</i>	96

Reading task 1	98
Word study	98
Speaking	98
Reading 3 - <i>A type of steam engine: The reciprocating engine</i>	99
Reading task 1	100
Word study	100
Use of English - <i>reciprocating steam engine</i>	102
Section two	103
Reading 1 - <i>The steam turbine</i>	103
Reading task 1	105
Word study	105
Writing	106
Listening	108
Language study - <i>Describing functions of engineering devices</i>	110
Helpful notes	112
UNIT 6 – Internal combustion engines	115
Section one	116
Reading 1 - <i>The two-stroke cycle gasoline engine</i>	116
Reading task	118
Word study	118
Reading 2 - <i>The diesel engine</i>	119
Reading task 1	120
Word study	121
Use of English 1	121
Writing	125
Speaking	125
Reading 3 - <i>Other types of internal heat engines</i>	126
Reading task 1	127
Word study	127
Section two	130
Reading 1 - <i>Electric motor</i>	130
Reading task	131
Word study 1	132
Listening 1	133
Language study - <i>Making comparisons</i>	135
Helpful notes	137
UNIT 7 – Fuel - Lubricants	139
Section one	140

Reading 1 - <i>Fuel - An overview</i>	140
Reading task 1	141
Word study	142
Use of English - <i>Nuclear fuel</i>	143
Writing	144
Listening	145
Reading 2 - <i>Nuclear energy</i>	146
Reading task	147
Word study	148
Section two	149
Reading 1 - <i>Lubricants</i>	149
Reading task 1	150
Word study	151
Use of English - <i>Friction</i>	151
Reading 2 - <i>The lubrication system</i>	154
Reading task	155
Word study	155
Writing 1	156
Language study - <i>Simple present passive/Simple past passive</i>	158
Helpful notes	161
UNIT 8 - Hydraulics - Pneumatics	163
Section one	164
Reading 1 - <i>Hydraulics - Historical review</i>	164
Reading task 1	166
Word study 1	167
Use of English - <i>The hydraulic system</i>	168
Writing 1	169
Section two	171
Reading 1 - <i>Pneumatics</i>	171
Reading task 1	172
Word study 1	172
Reading 2 - <i>Portable pneumatic tools</i>	177
Reading task	177
Word study	178
Speaking	179
Listening	181
Writing	182
Language study - <i>Nouns, adjectives and adverbs</i>	183
Helpful notes	185

UNIT 9 – Engineering materials - Joining methods	187
Section one	188
Reading 1 – <i>Engineering materials</i>	189
Reading task	190
Word study	191
Reading 2 – <i>Metals and non-metals</i>	192
Reading task 1	193
Use of English - <i>Focus on non-metals</i>	194
Reading 3 - <i>Corrosion</i>	198
Reading task 1	199
Word study	200
Section two	201
Reading - <i>Joining methods</i>	202
Reading task	204
Word study 1	204
Writing	206
Speaking	206
Listening	206
Language study - <i>Revision: Zero conditional, stating facts</i>	208
Helpful notes	210
UNIT 10 – Factory automation - Industrial robotics - Industrial safety	211
Section one	212
Reading 1 – <i>manufacturing applications of automation</i>	212
Reading task	213
Word study	214
Reading 2 - <i>Industrial robotics</i>	216
Reading task	217
Word study	217
Listening	220
Writing	222
Speaking	222
Section two	224
Reading - <i>Industrial safety: Hazards and their prevention</i>	225
Reading task	226
Word study	226
Use of English - <i>Systems approach</i>	227
Speaking	228
Language study - <i>Revision: Simple present/past/present perfect/future</i>	229
Helpful notes	231

UNIT 11 – Alternative sources of energy	233
Reading 1 – <i>Energy consumption worldwide</i>	234
Reading task 1	235
Word study	236
Reading 2 – <i>Alternative energy sources I: Geothermal and ocean power</i>	238
Reading task	240
Word study 1	240
Reading 3 – <i>Alternative energy sources II: Biomass</i>	242
Reading task 1	242
Word study	243
Use of English – <i>The falling cost of renewables</i>	243
Speaking 1	245
Writing	246
Listening	247
Language study – <i>Revision: Simple present/past/present perfect/past perfect/ future</i>	248
Helpful notes	251
UNIT 12 – Protection of the environment	253
Reading 1 – <i>Environment – Energy production</i>	254
Reading task 1	255
Word study 1	255
Reading 2 – <i>Protection of the environment</i>	258
Reading task	259
Word study	259
Writing	260
Speaking	260
Listening	262
Language study – <i>First, second and third conditional, stating facts</i>	263
Helpful notes	266
Revision tests	267
References	275
Answer Key	276
Unilingual glossary	317
Bilingual glossary	342
