

# CONTENTS

Preface .....	7
UNIT I : The requirements of a building .....	9
Durability .....	29
UNIT II : Geotechnical Engineering .....	51
UNIT III : Site Considerations .....	75
UNIT IV : Excavation - Foundation - Construction .....	97
UNIT V : What is a Structure .....	115
UNIT VI : Structures .....	133
1. Continuous Structures .....	133
2. Framed Structures .....	135
UNIT VII : Construction Methods I .....	155
Construction Methods II .....	174
UNIT VIII : Capacity and Structural Stability .....	195
UNIT IX : Structural Steel .....	217
UNIT X : Aluminium in Building Construction .....	239
UNIT XI : Concrete - Part I .....	263
UNIT XII : Concrete - Part II .....	279
UNIT XIII : Earthquake Engineering .....	297
UNIT XIV : Building Insulation .....	321
UNIT XV : Environmental Issues in Construction .....	341
UNIT XVI : Surveying .....	361

UNIT XVII : Tunnelling .....	381
UNIT XVIII: Management .....	403
IRREGULAR VERBS .....	421
ENGLISH-GREEK CIVIL ENGINEERING DICTIONARY .....	427
BIBLIOGRAPHY .....	597
REFERENCE WEBSITES .....	599
